

# Title

---

## Info

## Implementation

*These are the constants and functions used to calculate the program output.*

## Input

---

*The following user data is needed to calculate the program output.*

.

## Example

## Output

---

*The following system data is output by the program.*

•

# Example

# Test Data

Input	XXX	XXX	XXX
Test 1			
Test 2			
Test 3			

Output	XXX	XXX	XXX
Test 1			
Test 2			
Test 3
